

Statement of Intent

Information Security Policy

The Policy of Skewb is on a continuing basis to exercise due care and due diligence to protect Information Systems from unauthorised access, use, disclosure, destruction, modification, disruption or distribution.

The Policy of Skewb is on a continuing basis to exercise due care and due diligence to protect Information Systems from unauthorised access, use, disclosure, destruction, modification, disruption or distribution. This will ensure that our reputation with our clients, and all related interested parties is maintained through confidentiality, integrity and availability.

What do you need to know?

The Executive Management Team (EMT) will ensure commitment to business, legal, regulatory, applicable requirements and contractual security obligations are taken into account. Risk Assessments against agreed criteria are regularly undertaken.

The EMT bears the responsibility for establishing and maintaining the system and undertakes to ensure its integrity is maintained through instruction, policies and training of Skewbers and that they have a proper understanding of what is required of them.

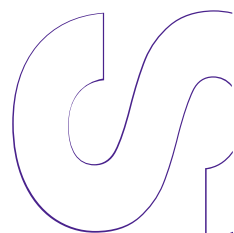

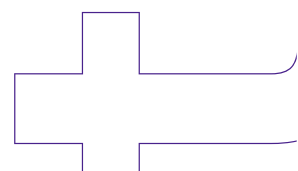

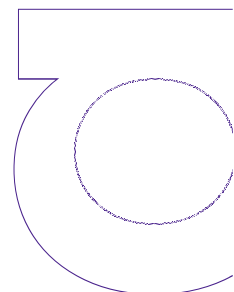

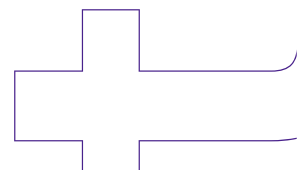

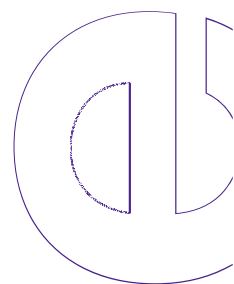

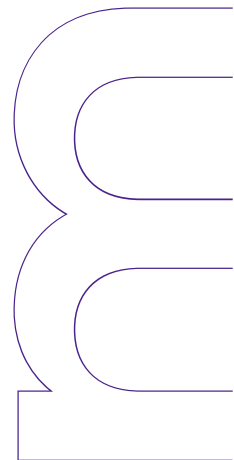

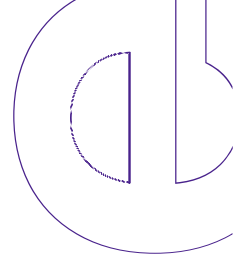

Equally every employee has a personal responsibility to maintain this integrity.

Further the EMT will ensure any partner engaged for a particular function will meet the requirements specified and accept responsibility for their actions.

The company has an ethos of continual improvement and objective setting in line with the ISO 27001:2017 Standard requirements.

Objectives and targets are set to meet the requirements of this policy and are reviewed regularly at EMT meetings to enable continual improvement. The policy will be made available to interested parties as appropriate.

The Information Security Management System, which forms part of Skewb's Integrated Management System, will be monitored regularly under the EMT's ultimate responsibility with regular reporting of the status and effectiveness at all levels.

Statement of Intent Information Security Policy

Signed:

Name: Shashi Seshadri

Position: Co-founder, Director and CEO

Date: 17th October 2022

Policy Updates

We will review this policy annually and update you should any changes be made.
